

Mathilde Guoin

MA Sustainable Design

Mathilde is a multidisciplinary designer, which works aims to utilise design artefacts as discursive tools to rebalance discourses that interrogate complex social issues and create new design frameworks. Her work seeks to allow underrepresented stories to be heard and to support more representative and plural futures.

Lauren Dark

MA Sustainable Design

Lauren is an interdisciplinary designer and researcher. Lauren makes to express concepts identified through my research. Whether it is psychogeography, linguistics or food, Lauren's aim is to push the boundaries of what is expected in design with an experimental approach.
