

# Closure of the Hastings Campus

The battle for jobs and public services

Join the demo **Saturday 14th May** @ 12pm, Priors  
Square University Building

## What does this mean for the town?

- Unemployment
- Loss of income for businesses and developers
- Reduced investment halting regeneration
- Potentially more empty buildings in the town centre
- Loss of a diverse community of academics, educators and graduates
- *Vastly* reduced HE provision at a 'new University Centre' in partnership with Sussex Coast College.

## What does the campus offer?

- Provides meaningful employment in the town
- A key role in the town's ongoing regeneration
- Developing local community partnerships through Economic and Social Engagement
- Widening participation to increase aspiration and access to Higher Education
- A range of courses attracting students locally, nationally and internationally
- Smaller class sizes enabling greater participation and access to modern resources and facilities and outstanding support
