

# the big xmas switch-off

'Twas the day before Christmas  
and all through the home,  
no consoles were whirring,  
the heating down low....

**Cut carbon this Christmas** - these are the top 4 things to remember to do before you head off for a well-deserved break!

## Don't just stand-by, switch-off

£££

An estimated £80 of energy costs per UK household is wasted every year just by leaving things on stand-by - switch it off at the wall to cut carbon and save money too!
