Statement regarding the use of the term “Parts”

There are three Practice Assessment Documents in total, which incorporate the range of Future Nurse Standards of proficiency (NMC 2018). “Parts” in this context is used to represent the range of outcomes to be achieved by students at different levels. These parts may differ from the parts of the education programme that will be defined locally by each programme provider

Welcome to the Practice Assessment Document (PAD)

Student responsibilities

This Practice Assessment Document is designed to support and guide you towards successfully achieving the criteria set out in the *Future nurse: Standards of proficiency for registered nurses and Standards for education and training* (NMC 2018).

The PAD makes up a significant part of your overall programme assessment. It will need to be processed through formal University systems. Continuous assessment is an integral aspect of assessment in practice and you are expected to show evidence of consistent achievement. You should engage positively in all learning opportunities, take responsibility for your own learning and know how to access support. You will work with and receive written feedback from a range of staff including Practice Supervisors and Practice Assessors and you are required to reflect on your learning.

You are responsible for raising concerns with a nominated person in the practice setting in a timely manner. You should also alert staff to any reasonable adjustments that may be required to support your learning.

You should ensure you are familiar with your university assessment and submission processes for this document and contact the academic representative from your university, or refer to your university's intranet if you require support or advice on specific university procedures.

The Ongoing Achievement Record (OAR) is a separate document that summarises your achievements in each placement and with the main document provides a comprehensive record of your professional development and performance in practice.

You are responsible for the safekeeping and maintenance of the PAD. It should be available to your Practice Supervisor, Practice Assessor and Academic Assessor at all times when you are in placement together with the OAR. Alterations should be made in this document by crossing through with one line, with a signature and date.

You will have access to confidential information when in practice placements. The PAD should not contain any patient/service user/carer identifiable information. Contents must not be disclosed to any unauthorised person or removed, photocopied or used outside the placement or university.

People must be offered the opportunity to give and if required withdraw their informed consent to student participation in their care and staff in practice will provide guidance as required. Before approaching any patient/service user/carer for feedback you must discuss with your Practice Supervisor/Practice Assessor who will facilitate consent.

Practice Supervisor responsibilities (Registered nurse/midwife or other registered health/social care professional)

In many practice areas the student will be supported by a number of Practice Supervisors. Some areas may adopt a team based approach due to the nature of the experience.

As a Practice Supervisor you have an important role in supporting and guiding the student through their learning experience to ensure safe and effective learning. This includes facilitating learning opportunities including any reasonable adjustments the student may need to get maximum benefit from the placement. It is your responsibility to contribute to the student's assessment through the recording of regular feedback on their progress towards, and achievement of their proficiencies. Specific feedback must be provided to the Practice Assessor on the student's progress.

Supervision in other placement areas (i.e. those areas where there are no health/social care registrants)

A range of staff can support student learning and have a vital role in student learning and development though may not be contributing formally to assessment of proficiencies.

However, these staff members are encouraged to support learning and can provide valuable student feedback within the PAD on the *Record of communication/additional feedback pages*.

Practice Assessor responsibilities (Registered Nurse)

As a Practice Assessor you have a key role in assessing and confirming the student's proficiency providing assurance of student achievements and competence. This includes facilitating learning opportunities including any reasonable adjustments the student may need to get maximum benefit from the placement. You will observe the student, conduct and record student assessments informed by student reflections, feedback from Practice Supervisors and other relevant people to confirm achievement. You will liaise with the Academic Assessor scheduling communication at relevant points.

Practice Assessors must have appropriate equivalent experience of the student's field of practice.

There are numerous elements requiring assessment in practice. One or more Practice Supervisors can contribute to the assessment of some of the proficiencies in discussion with you, but they must be working in their scope of practice.

When assessing the student, you should take into account sources of evidence that encompass knowledge, skills, attitudes and the views of those receiving care. Comments should acknowledge those exceptional students who are exceeding expectations for their stage in practice or who have particularly commendable attitudes, behaviours, knowledge or skills.

If the student is not meeting the required standards this should be highlighted as a development need. If there is a cause for concern or a fitness for practice issue that requires prompt action an Action Plan should be instigated to address specific needs or concerns within a specified timeframe. In the event of this, seek guidance from the Academic Assessor and/or senior practice representative.

Academic Assessor responsibilities

Academic Assessors are Registered Nurses and are nominated for each part of the educational programme. The same Academic Assessor cannot contribute to the student assessment in consecutive parts. The Academic Assessor will work in partnership with the Practice Assessor to evaluate and recommend the student for progression for each part of the educational programme. The Academic Assessor will enable scheduled communication and collaboration with the Practice Assessor and this communication can take a variety of forms.

All communications/ additional feedback (not already recorded in the scheduled interviews) from the Practice Supervisors, Practice Assessor and Academic Assessor and other staff members needs to be recorded on the relevant pages in the PAD.

Guidance for using the PAD to facilitate learning and assessment in practice

Assessment criteria in the PAD are based on the NMC *Future nurse: Standards of proficiency for registered nurses* and *Standards for education and training* (NMC 2018). The outcome statements have been designed by the NMC to apply across all four fields of nursing practice and all care settings (NMC 2018). *Students must be able to demonstrate a greater depth of knowledge and the additional more advanced skills required to meet the specific care needs of people in their chosen fields of nursing practice* (NMC, 2018, p6). **This Practice Assessment Document can be used in any field of practice.**

Components of Assessment and Feedback (see individual university guidance/regulations)

Professional Values: Professional Values reflect a number of proficiency statements and are captured under the 4 sections of The Code (NMC 2018). All must be achieved *by the end of each placement*.

Proficiencies: These reflect aspects of the 7 Platforms, communication and relationship management skills and nursing procedures (NMC 2018). These can be assessed in a range of placements, but must be achieved at least once *by the end of the Part*.

Episode of Care: This holistic assessment(s) facilitates and demonstrates the student's progress and must be achieved *by the end of the Part*.

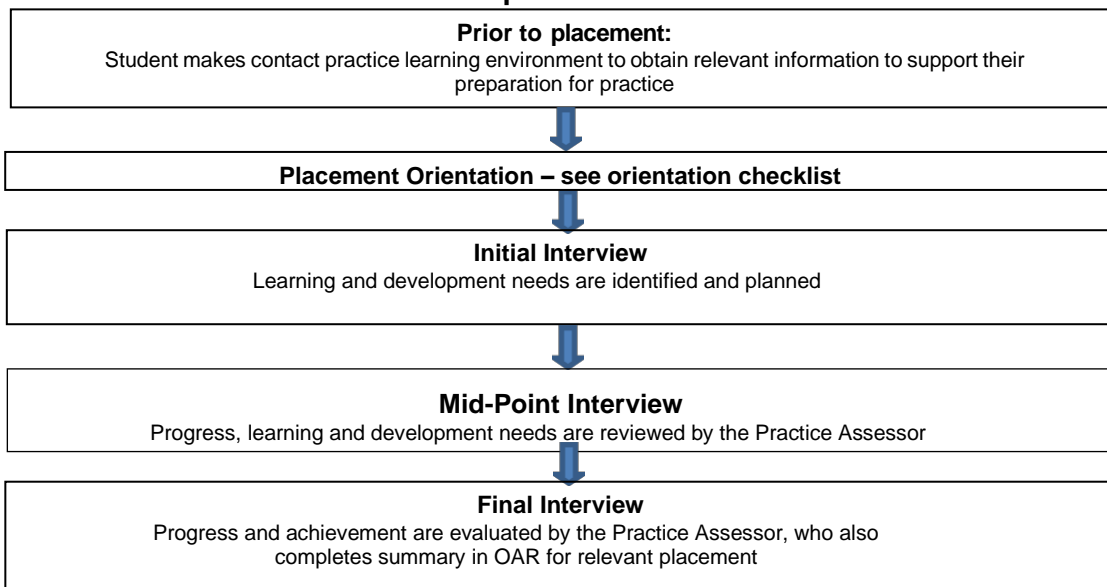

Medicines Management: There is one assessment included in each part and each must be achieved *by the end of the Part*.

Patient/Service User/Carer Feedback Form: Feedback will be sought in relation to how the student cared for the person receiving care. This is not formally assessed, but will contribute to overall student feedback.

Recording Additional Experiences and Feedback: There are additional pages for the student to record reflections on their own learning and pages to record communication and additional feedback from all those supporting learning and assessment.

Ongoing Achievement Record: The OAR summarises overall achievements and provides a comprehensive record of student development and overall performance.

Process of practice assessment

Further information / guidance is included in the university specific pages (overleaf) and in the Practice Assessment Document Guide

University of Brighton - Guidelines for Placement Assessment and Progression

Placement

Placements are periods of practice learning scheduled in trimesters 1-3 of each academic year. The placement will enable completion of the following summative assessments by a practice assessor: Proficiencies, Professional Values, Episode of Care and Medicine Management. Successful completion of these assessments will enable the student to meet the Nursing and Midwifery Council (NMC) Future Nurse: Standards of proficiency for registered nurses (NMC, 2018). Please refer to the Course Handbook and Student Central – Placement Area for full details and information on placements.

Summative Assessments

Proficiencies

The student **MUST** achieve each proficiency **ONCE** in any placement in the same academic year. Most proficiencies are specific to academic year 1, 2 or 3. However, there are certain proficiencies that are achievable in either year 2 or 3. Therefore, if the proficiency is achieved in year 2, it does not need to be reassessed in year 3. A proficiency that has been allocated as '**Assessed in University only**' **MUST** be achieved **ONCE** in the same academic year during the Practice Learning for Nursing module.

Once a proficiency is achieved, the student is accountable for ensuring the level of proficiency achieved is maintained. If a practice supervisor / practice assessor deems that the student has not maintained a proficiency, the academic assessor will be informed, an action plan will be developed and the student will be reassessed in the proficiency.

Professional Values

The student **MUST** achieve professional values at the end of each placement. A mid-point formative review of progress within each placement occurs with the practice supervisor/practice assessor

Episode(s) of Care and Medicine Management

These are conducted by your practice assessor. They only need to be **completed once per year**. In agreement with the Practice Assessor, the student can undertake these assessments at any point in any placement but they **MUST** be completed before the Summative Submission point. The student can only be assessed **ONCE** per placement so if **unsuccessful cannot be reassessed again in the same placement**.

Support from University whilst in Placement

Practice Liaison Lecturers (PLL) works collaboratively with placement providers to support and facilitate student learning and achievement. The PLL role is to:

- Act as a point of contact for students, practice supervisors, practice assessors, academic assessors and other practice staff supporting student learning.
- Participate in meetings with the student and their practice supervisor, practice assessor and academic assessor (as required).
- Visit placement to offer guidance and support to practice supervisor, practice assessor and other practice staff supporting students learning (as required).
- Respond to student placement evaluations.

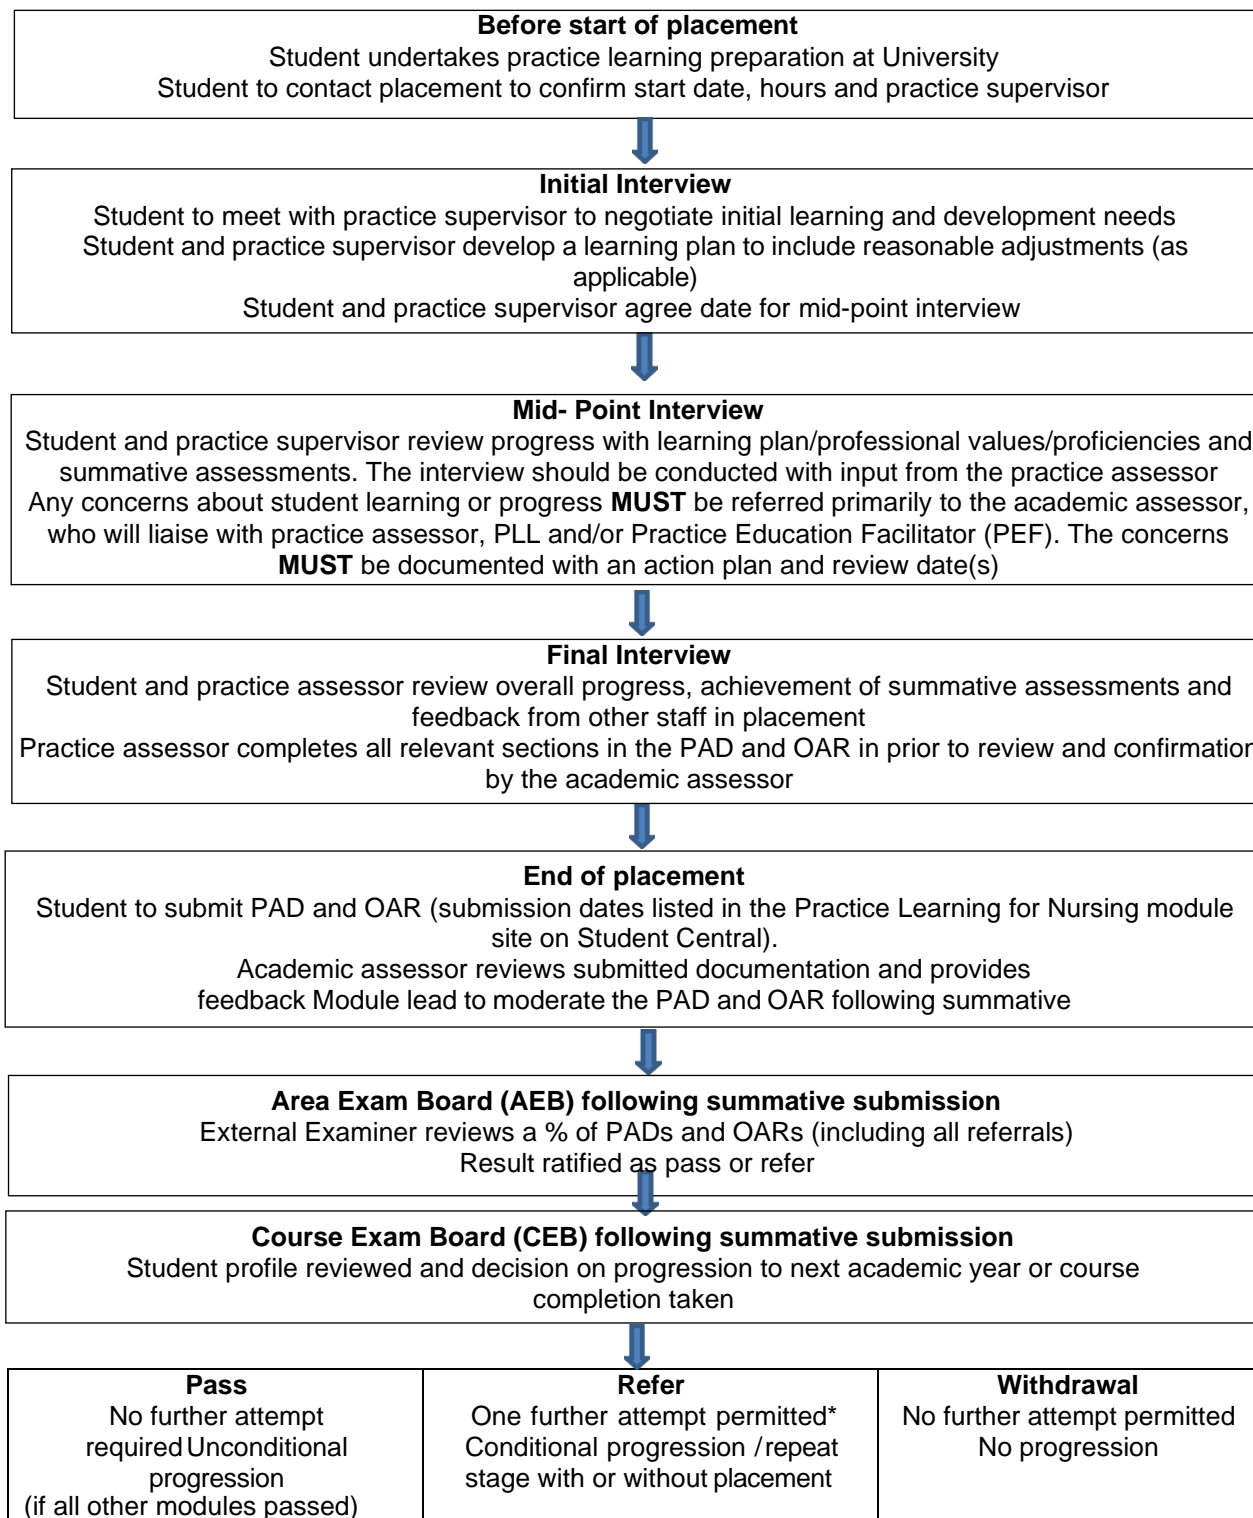

Contact a PLL via a shared email account PracticeLiaisonTeam@brighton.ac.uk

Submission of Practice Assessment Document (PAD)

The student will submit the PAD and Ongoing Achievement Record (OAR) at the end of the first placement period for a formative review by the academic assessor who will provide feedback for ongoing development and support in the student's practice learning and completion of the summative assessments.

The student will submit the PAD and OAR at the end of the second placement period for a summative review by the academic assessor who will provide feedback and confirm the pass/fail result

Please see the next page for an overview of the assessment process and student progression.

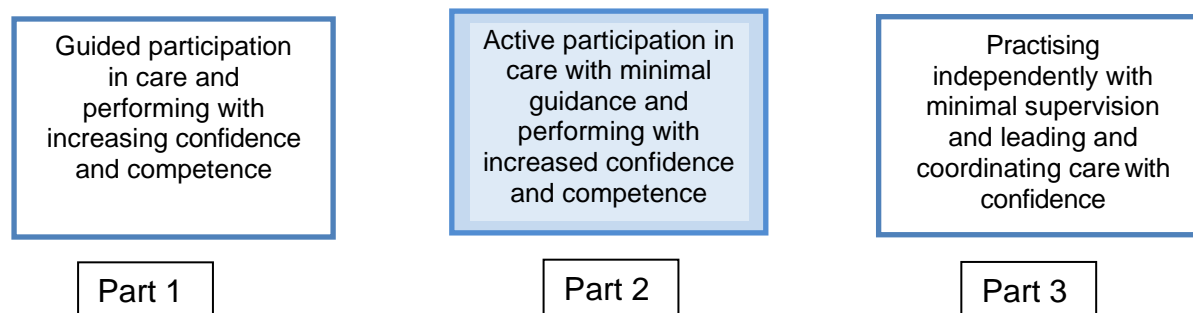

*Unless previous attempt deferred following upheld mitigating circumstances

Please refer to the Course Handbook and Student Central – Assessment Information for full details and information on assessment regulations, examination boards and mitigating circumstances.

Criteria for Assessment in Practice

Overall Framework Parts 1 – 3 to be achieved by the end of the part

The decision on the level of supervision provided for students should be based on the needs of the individual student. The level of supervision can decrease with the student's increasing proficiency and confidence. (NMC, 2018, p 5)

Part 2: Active participation in care with minimal guidance and increasing confidence

'Achieved' must be obtained in all three criteria by the student

Achieved	Knowledge	Skills	Attitude and Values
YES	Has a sound knowledge base to support safe and effective practice and provide the rationale to support decision making.	Utilises a range of skills to deliver safe, person centred and evidence based care with increased confidence and in a range of contexts.	Demonstrates an understanding of professional roles and responsibilities within the multidisciplinary team. Maximises opportunities to extend own knowledge.
NO	Has a superficial knowledge base and is unable to provide a rationale for care, demonstrating unsafe practice	With supervision is not able to demonstrate safe practice and is unable to perform the activity and/or follow instructions despite repeated guidance	Demonstrates lack of self-awareness and understanding of professional role and responsibilities. Is not asking appropriate questions nor engaged with their own learning.

Professional Values in Practice (Part 2)

Students are required to demonstrate high standards of professional conduct at all times during their placements. Students should work within ethical and legal frameworks, and be able to articulate the underpinning values of The Code (NMC, 2018). Professional Values reflect a number of proficiency statements and are captured under the 4 sections of The Code.

If on a split placement –Mid-point Assessment will be performed at the end of Placement 1A and Final Assessment at the end of Placement 1B

The Practice Assessor has responsibility for assessing Professional Values though the Mid-Point review can be completed by a Practice Supervisor in liaison with the Practice Assessor.

Yes = Achieved, No =Not Achieved (Refer to Criteria for Assessment in Practice)

Patient/Service User/Carer Feedback

Practice Supervisors/Practice Assessors should obtain consent from patients/service users/carers who should feel able to decline to participate. Please choose one of the following four forms which you feel is appropriate for your patient/carer/service user

Form 1

We would like to hear your views about the way the student nurse has supported your care. Your feedback will not change the way you are cared for and will help the student nurse's learning.

Tick if you are:	The Patient/Service User		Carer/Relative		
	Very Happy 	Happy 	I'm not sure 	Unhappy 	Very unhappy

Form 4

Child/Young Persons Feedback to Enhance Learning for Student Nurses

Please answer the following questions relating to the student nurse:

Did the nurse talk to you?

Was the nurse kind to you?

Did the nurse listen to you?

Colour in how many stars you would give the Nurse

Please use this space to draw a picture of the student nurse

A large, empty rectangular box with a black border, provided for drawing a picture of the student nurse.

Record of peer feedback

Feedback is an essential part of the learning process. Through engaging in peer review and receiving feedback from a number of peers, students are exposed to a greater diversity of perspectives as well as enabling students to develop skills in peer review and feedback.

These records can be completed by peers i.e. other students who have worked alongside you or have had the opportunity to discuss your learning needs with you. If you have facilitated a teaching session on placement you can use the form below to obtain feedback.

Assessment of Proficiencies

Incorporating Platforms 1 – 7

Annexe A: Communication and relationship management skills

Annexe B: Nursing procedures

These proficiencies ***“apply to all registered nurses, but the level of expertise and knowledge required will vary depending on the chosen field(s) of practice”***. (NMC, Future Nurse, 2018, p22, 26)

Assessment of Proficiencies are undertaken across the Part. These can be assessed in a range of placements but need to be assessed as Achieved (YES) at least once by the end of the Part. If a proficiency is assessed as Achieved (YES) early in the Part it is expected that the student maintains that level of competence and can be re-assessed in subsequent placements at the Practice Assessor’s discretion.

The Grade Descriptors are ‘Yes’ (This proficiency has been achieved), ‘No’ (this proficiency has not been achieved). Refer to Criteria for Assessment in Practice for further details.

Some of the proficiencies may be met within simulated learning as per the individual university’s policy.

Proficiencies marked with an * can be met in either Part 2 or Part 3 and please refer page 40 and to the OAR to confirm achievement of these.

If any proficiency has not been assessed or is not applicable to the Practice area, please leave blank.

Part 2 Assessment of Performance: The individual completing the assessment should draw on a range of observed experiences in which the students demonstrates the required knowledge, skills, attitudes and values to achieve high quality person/family-centred care in an increasingly confident manner, ensuring all care is underpinned by effective communication skills.

Those marked with an * can be assessed in Part 2 or Part 3. Please record in OAR as well.

8. Makes informed judgements and initiates appropriate evidence based interventions in managing a range of commonly encountered presentations.						
Participates in the procedures for the planning, provision and management of person-centred care with increased confidence						
9. Assesses skin and hygiene status and demonstrates knowledge of appropriate products to prevent and manage skin breakdown.						
* 10. Utilises aseptic techniques when undertaking wound care and in managing wound and drainage processes (including management of sutures and vacuum removal where appropriate).						
11. Effectively uses evidence based nutritional assessment tools to determine the need for intervention. (B5.1, B5.2)						
*12. Demonstrates understanding of artificial nutrition and hydration and is able to insert, manage and remove oral/nasal gastric tubes where appropriate.						

If any proficiency has not been assessed or is not applicable to the Practice area, please leave blank.

*Part 3, No. 4 Recognises signs of deterioration (mental distress/emotional vulnerability/physical symptoms) and takes prompt and appropriate action to prevent or reduce risk of harm to the person and others using for example positive behavioural therapy or distraction and diversion strategies.						

Part 2 Episode of Care 1

This assessment must be completed by the end of Part 2
Guidelines

The practice assessor and student will identify an appropriate episode of direct care involving meeting the needs of a group of people receiving care or in caring for an individual with complex health care needs. Within this episode students should demonstrate skills to undertake a comprehensive assessment and understanding of commonly encountered presentations. Professionalism underpins all aspects of the student's performance.

The aim of this assessment is to demonstrate the student's progression in the following 5 platforms within the *Future Nurse: Standards of proficiency (including skills from annexe A and B)* (NMC 2018) **in the context of their intended field(s) of practice:**

- Promoting health and preventing ill health
- Assessing needs and planning care
- Providing and evaluating care
- Leading and managing nursing care and working in teams
- Improving safety and quality of care

Effective communication and relationship management skills underpin all aspects of care (Annexe A)

Students are required to use appropriate therapeutic approaches and techniques considering the person's motivation, capacity and need for reasonable adjustment applying understanding of mental capacity and health legislation as appropriate.

Learning outcomes

The student is able to:

1. Provide safe, person-centred care, evidence based care in an increasingly confident manner, within an appropriate timeframe in partnership with the person receiving care/family and the multidisciplinary team.
2. Identify and use appropriate opportunities and effective communication skills to explore the importance of healthy lifestyle choices in relation to the mental and physical health and wellbeing of the persons receiving care e.g. motivational interview techniques.
3. Demonstrate that they can undertake a '*whole person assessment*' and effectively contribute to the decision making process and provision of safe, person-centred, evidence based care.
4. Demonstrate that they can co-ordinate the nursing care of a small group of people/person with complex care needs, demonstrating understanding of risk assessment and management and can access appropriate support and resources as required using distraction and diversion strategies.
5. Demonstrate their potential to work more independently, making the most of opportunities to extend knowledge, skills and practice.

Student reflection on an episode of care

Within your reflection describe the episode of care and how you assessed, planned, delivered and evaluated person-centred care.

What did you do well?

What would you have done differently?

Describe how you have begun to work more independently in the provision of care and the decision making process.

What learning from this episode of care could be transferred to other areas of practice?

Practice Assessor feedback		
Based on the student's reflection, your observation and discussion of the episode of care, please assess and comment on the following: YES = Achieved No = Not Achieved (Refer to Criteria for Assessment in Practice)		
Proficiencies	Yes/No	Comments
Promoting health Applies knowledge of healthy lifestyle choices in relation to the person/persons physical health, mental health and wellbeing. e.g. smoking cessation.		
Assessing needs and planning care Accurately undertakes a comprehensive assessment and identifies need and plans care for a range of health needs.		
Providing and evaluating care Demonstrates safe, compassionate, person-centred, evidence based care that respects and maintains the person/persons dignity and human rights when managing a range of commonly encountered presentations e.g. anxiety, pain, restlessness, confusion.		
Improving safety and quality of care Accurately undertakes risks assessments and demonstrates an understanding of local and national frameworks for managing and reporting risks.		
Leading nursing care and working in teams Uses effective communication skills to manage the care of a small group of people/individuals with complex care needs, demonstrating the ability to prioritise care recognising when and whom to refer/delegate to as appropriate.		
If any of the Standards are 'Not Achieved' this will require a re-assessment and the Academic Assessor must be informed

Part 2 Episode of Care 2

This assessment must be completed by the end of Part 2.

Guidelines

The practice assessor and student will identify an appropriate episode of direct care involving caring for people with increasingly complex health and social care needs (may be a single or a group of individuals depending on the care environment). Professionalism underpins all aspects of the student's performance.

The aim of this assessment is to demonstrate the student's progression in the following six platforms within the *Future Nurse: Standards of proficiency* (including skills from annex A and B) (NMC 2018) in the context of their field of nursing:

- Promoting Health
- Assessing needs and planning care
- Providing and evaluating care
- Leading nursing care and working in team
- Improving safety and quality of care
- Coordinating care

Effective communication and relationship management skills underpin all aspects of care

Students are required to use appropriate approaches and techniques considering the person's motivation, capacity and need for reasonable adjustment applying understanding of mental capacity and health legislation as appropriate.

Learning outcomes

The student is able to:

1. Demonstrate and applies knowledge of a range of mental health and physical health conditions in the assessment, planning, implementation and evaluation of person centred, evidence based care.
2. Demonstrate understanding of the contribution of social influences, health literacy, behaviours and lifestyle choices to the mental health and physical health outcomes in people, families and communities.
3. Demonstrate relevant knowledge in the prioritisation of care and is able to identify changes in a person's condition and responds appropriately
4. Interact and engage confidently with families/carers and members of the multidisciplinary team in coordinating care for a small group of people (or in caring for an individual with complex care needs).
5. Accurately undertake risk assessments demonstrating understanding of risk management and health improvement strategies.

Practice Assessor feedback		
Based on the student's reflection, your observation and discussion of the episode of care, please assess and comment on the following: YES = Achieved No = Not Achieved (Refer to Criteria for Assessment in Practice)		
Proficiencies	Yes/No	Comments
Promoting health Discusses the possible influences on the person's/group of people's mental health and physical health and can highlight a range of factors impacting on them and the wider community.		
Assessing needs and planning care Utilises relevant knowledge and skills to undertake a comprehensive assessment, continually monitoring a person's condition, interpret signs of deterioration or distress and escalate appropriately.		
Providing and evaluating care Applies relevant knowledge and skills in the provision of more complex person-centred, evidence based care demonstrating effective communication skills and the ability to document effectively.		
Improving safety and quality of care Undertakes relevant risk assessments, discusses risk management and can propose improvements to enhance the quality of care		
Coordinating and leading nursing care Supports the person/persons receiving care and their families in maintaining independence and minimising disruption to their lifestyle, demonstrating understanding of the need for multi-agency working.		
If any of the Standards are 'Not Achieved' this will require a re-assessment and the Academic Assessor must be informed

Part 2 Medicines Management

This assessment must be completed by the end of Part 2 where the student safely administers medicines to a group of patients/service users or a caseload of patients/service users in community settings.

During Part 2 the student should be developing their knowledge, skills and competencies in relation to the safe administration of medicines. This assessment should normally be undertaken with a small group of patients/service users or caseload. **Professionalism underpins all aspects of the student's performance.**

The student must be allowed a number of practice opportunities to administer medicines under supervision prior to this assessment.

The student must work within the legal and ethical frameworks that underpin safe and effective medicines management and work within national and local policies

Regulatory requirements: *Future Nurse: Standards of Proficiency for Registered Nurses* (NMC 2018), *The Code* (NMC 2018), *A Competency Framework for all Prescribers* (The Royal Pharmaceutical Society 2016)

The aim of this assessment is to demonstrate the student's knowledge and competence in administering medications safely.

Learning outcomes

The student is able to:

1. Apply knowledge of pharmacology, how medicines act and interact in the systems of the body, and their therapeutic action.
2. Carry out an initial and continued assessment of people receiving care and their ability to self-administer their own medications.
3. Prepare medications where necessary, safely and effectively administer these via common routes, maintains accurate records and is aware of the laws, policies, regulations and guidance which underpin medicines management.
4. Safely and accurately perform medicines calculations for a range of medications.
5. Coordinate the process and procedures involved in managing the safe discharge, move or transfer between care settings of the person.
6. Maintain safety and safeguard the patient from harm, including non-compliance, demonstrating understanding of the Mental Capacity Act (DH 2005) the Mental Health Act (DH 1983, amended 2007), where appropriate.

YES = Achieved No = Not Achieved					
Competency		Yes/No	Competency		Yes/No
1.	Is aware of the patient/service user's plan of care and the reason for medication demonstrating knowledge of pharmacology for commonly prescribed medicines within the practice area.		7.	Prepares medication safely. Checks expiry date. Notes any special instructions/contraindications.	
2.	Communicates appropriately with the patient/service user. Provides clear and accurate information and checks understanding.		8.	Calculates doses accurately and safely. <ul style="list-style-type: none"> • Demonstrates to assess the component parts of the calculation. • Minimum of 3 calculations undertaken. 	
3.	Understands safe storage of medications in the care environment.		9.	Checks and confirms the patient/service user's identity and establishes consent. (ID band or other confirmation if in own home)	
4.	Maintains effective hygiene/infection control throughout.		10.	Administers or supervises self-administration safely under direct supervision. Verifies that oral medication has been swallowed.	
5.	Checks prescription thoroughly. <ul style="list-style-type: none"> • Right patient/service user • Right medication • Right time/Date/Valid period • Right dose/last dose • Right route/method • Special instructions 		11.
