SOUTH PAD PRACTICE ASSESSMENT DOCUMENT NURSING

PART 3

BSc Nursing

South PAD 1.0; Future Nurse: Standards of proficiency for registered nurses, (NMC 2018)

Please keep your Practice Assessment Document and Ongoing Achievement Record (OAR) with you at all times in practice in order to review your progress with your Practice Supervisor, Practice Assessor and/or Academic Assessor

This South PAD Practice Assessment Document for Nursing has been adapted from the Pan London Practice Assessment Document which was completed by the Pan London Practice Learning Group in collaboration with practice partners, mentors, academic staff, students and service users across the London Region. This work has been led by Jane Fish as Project Manager. The South PAD Project Team has also collaborated with practice partners, mentors, academic staff, students and service users across the South Region in the adaptation process.

Membership of the Pan London Practice Learning Group (PLPLG)

- Kathy Wilson, Associate Professor, Head of Practice Based Learning, Middlesex University (Chair)
- Nicki Fowler, Programme Leader/Professional Lead, Learning Disabilities, University of Greenwich (Vice Chair)
- Lynn Quinlivan, Practice Programme Co-Ordinator for Pre-Registration Nursing, University of Hertfordshire
- Sue Woodward, Senior Lecturer, Head of Clinical Education, King's College London
- Karen Chandler, Associate Professor, Director of Practice Learning, Kingston University and St George's, University of London
- Alex Levine, Faculty Director Practice Learning, Canterbury Christchurch University

Statement regarding the use of the term “Parts”

There are three Practice Assessment Documents in total, which incorporate the range of Future Nurse Standards of proficiency (NMC 2018). “Parts” in this context is used to represent the range of outcomes to be achieved by students at different levels. These parts may differ from the parts of the education programme that will be defined locally by each university provider.

Welcome to the Practice Assessment Document (PAD)

Student responsibilities

This Practice Assessment Document is designed to support and guide you towards successfully achieving the criteria set out in the *Future nurse: Standards of proficiency for registered nurses and Standards for education and training* (NMC 2018).

The PAD makes up a significant part of your overall programme assessment. It will need to be processed through formal University systems. Continuous assessment is an integral aspect of assessment in practice and you are expected to show evidence of consistent achievement. You should engage positively in all learning opportunities, take responsibility for your own learning and know how to access support. You will work with and receive written feedback from a range of staff including Practice Supervisors and Practice Assessors and you are required to reflect on your learning.

You are responsible for raising concerns with a nominated person in the practice setting in a timely manner. You should also alert staff to any reasonable adjustments that may be required to support your learning.

You should ensure you are familiar with your university assessment and submission processes for this document and contact the academic representative from your university, or refer to your university's intranet if you require support or advice on specific university procedures.

The Ongoing Achievement Record (OAR) is a separate document that summarises your achievements in each placement and with the main document provides a comprehensive record of your professional development and performance in practice.

You are responsible for the safekeeping and maintenance of the PAD. It should be available to your Practice Supervisor, Practice Assessor and Academic Assessor at all times when you are in placement together with the OAR. Alterations should be made in this document by crossing through with one line, with a signature and date.

You will have access to confidential information when in practice placements. The PAD should not contain any patient/service user/carers identifiable information. Contents must not be disclosed to any unauthorised person or removed, photocopied or used outside the placement or university.

People must be offered the opportunity to give and if required withdraw their informed consent to student participation in their care and staff in practice will provide guidance as required. Before approaching any patient/service user/carers for feedback you must discuss with your Practice Supervisor/Practice Assessor who will facilitate consent.

Practice Supervisor responsibilities (Registered nurse/midwife or other registered health/social care professional)

In many practice areas the student will be supported by a number of Practice Supervisors. Some areas may adopt a team based approach due to the nature of the experience.

As a Practice Supervisor you have an important role in supporting and guiding the student through their learning experience to ensure safe and effective learning. This includes facilitating learning opportunities including any reasonable adjustments the student may need to get maximum benefit from the placement. It is your responsibility to contribute to the student's assessment through the recording of regular feedback on their progress towards, and achievement of their proficiencies. Specific feedback must be provided to the Practice Assessor on the student's progress.

Supervision in other placement areas (i.e. those areas where there are no health/social care registrants)

A range of staff can support student learning and have a vital role in student learning and development though may not be contributing formally to assessment of proficiencies.

However, these staff members are encouraged to support learning and can provide valuable student feedback within the PAD on the *Record of communication/additional feedback pages*.

Practice Assessor responsibilities (Registered Nurse)

As a Practice Assessor you have a key role in assessing and confirming the student's proficiency providing assurance of student achievements and competence. This includes facilitating learning opportunities including any reasonable adjustments the student may need to get maximum benefit from the placement. You will observe the student, conduct and record student assessments informed by student reflections, feedback from Practice Supervisors and other relevant people to confirm achievement. You will liaise with the Academic Assessor scheduling communication at relevant points.

Practice Assessors must have appropriate equivalent experience of the student's field of practice.

There are numerous elements requiring assessment in practice. One or more Practice Supervisors can contribute to the assessment of some of the proficiencies in discussion with you, but they must be working in their scope of practice.

When assessing the student, you should take into account sources of evidence that encompass knowledge, skills, attitudes and the views of those receiving care. Comments should acknowledge those exceptional students who are exceeding expectations for their stage in practice or who have particularly commendable attitudes, behaviours, knowledge or skills.

If the student is not meeting the required standards this should be highlighted as a development need. If there is a cause for concern or a fitness for practice issue that requires prompt action an Action Plan should be instigated to address specific needs or concerns within a specified timeframe. In the event of this, seek guidance from the Academic Assessor and/or senior practice representative.

Academic Assessor responsibilities

Academic Assessors are Registered Nurses and are nominated for each part of the educational programme. The same Academic Assessor cannot contribute to the student assessment in consecutive parts. The Academic Assessor will work in partnership with the Practice Assessor to evaluate and recommend the student for progression for each part of the educational programme. The Academic Assessor will enable scheduled communication and collaboration with the Practice Assessor and this communication can take a variety of forms.

All communications/ additional feedback (not already recorded in the scheduled interviews) from the Practice Supervisors, Practice Assessor and Academic Assessor and other staff members needs to be recorded on the relevant pages in the PAD.

Guidance for using the PAD to facilitate learning and assessment in practice

Assessment criteria in the PAD are based on the NMC *Future nurse: Standards of proficiency for registered nurses* and *Standards for education and training* (NMC 2018). The outcome statements have been designed by the NMC to apply across all four fields of nursing practice and all care settings (NMC 2018). *Students must be able to demonstrate a greater depth of knowledge and the additional more advanced skills required to meet the specific care needs of people in their chosen fields of nursing practice* (NMC, 2018, p6). **This Practice Assessment Document can be used in any field of practice.**

Components of Assessment and Feedback (see individual university guidance/regulations)

Professional Values: Professional Values reflect a number of proficiency statements and are captured under the 4 sections of The Code (NMC 2018). All must be achieved *by the end of each placement*.

Proficiencies: These reflect aspects of the 7 Platforms, communication and relationship management skills and nursing procedures (NMC 2018). These can be assessed in a range of placements, but must be achieved at least once *by the end of the Part*.

Episode of Care: This holistic assessment(s) facilitates and demonstrates the student's progress and must be achieved *by the end of the Part*.

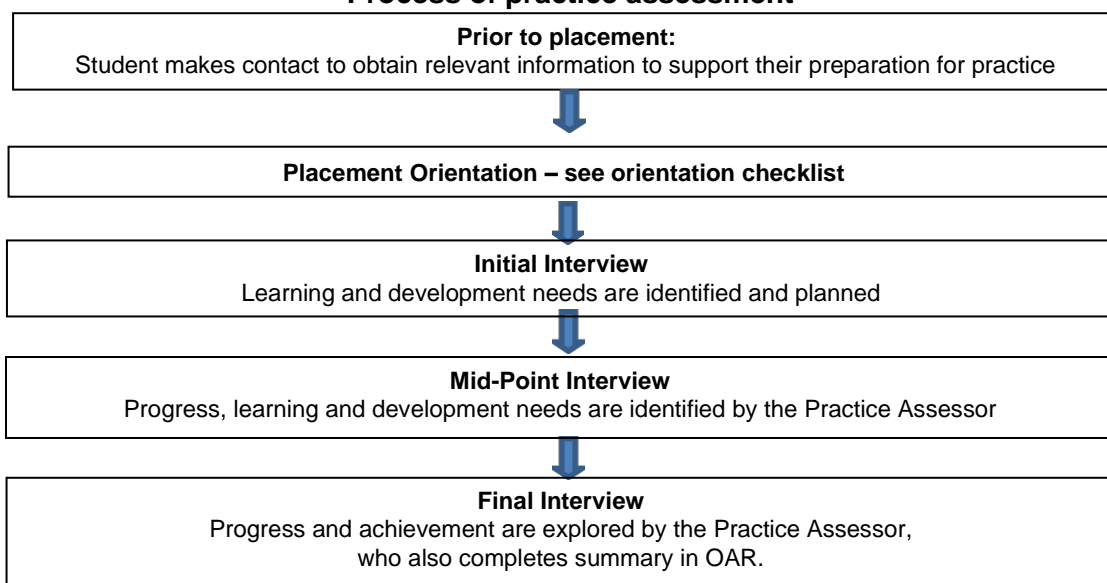

Medicines Management: There is one assessment included in each part and each must be achieved *by the end of the Part*.

Patient/Service User/Carer Feedback Form: Feedback will be sought in relation to how the student cared for the person receiving care. This is not formally assessed, but will contribute to overall student feedback.

Recording Additional Experiences and Feedback: There are additional pages for the student to record reflections on their own learning and pages to record communication and additional feedback from all those supporting learning and assessment.

Ongoing Achievement Record: The OAR summarises overall achievements and provides a comprehensive record of student development and overall performance.

Process of practice assessment

Further information / guidance is included in the university specific pages (overleaf) and in the *Practice Assessment Document Guide*

University of Brighton - Guidelines for Placement Assessment and Progression

Placement

Placements are periods of practice learning scheduled in trimesters 1-3 of each academic year. The placement will enable completion of the following summative assessments by a practice assessor: Proficiencies, Professional Values, Episode of Care and Medicine Management. Successful completion of these assessments will enable the student to meet the Nursing and Midwifery Council (NMC) Future Nurse: Standards of proficiency for registered nurses (NMC, 2018). Please refer to the Course Handbook and Student Central – Placement Area for full details and information on placements.

Summative Assessments

Proficiencies

The student **MUST** achieve each proficiency **ONCE** in any placement in the same academic year. Most proficiencies are specific to academic year 1, 2 or 3. However, there are certain proficiencies that are achievable in either year 2 or 3. Therefore, if the proficiency is achieved in year 2, it does not need to be reassessed in year 3. A proficiency that has been allocated as '**Assessed in University only**' **MUST** be achieved **ONCE** in the same academic year during the Practice Learning for Nursing module.

Once a proficiency is achieved, the student is accountable for ensuring the level of proficiency achieved is maintained. If a practice supervisor / practice assessor deems that the student has not maintained a proficiency, the academic assessor will be informed, an action plan will be developed and the student will be reassessed in the proficiency.

Professional Values

The student **MUST** achieve professional values at the end of each placement. A mid-point formative review of progress within each placement occurs with the practice supervisor/practice assessor

Episode(s) of Care and Medicine Management

These are conducted by your practice assessor. They only need to be **completed once per year**. In agreement with the Practice Assessor, the student can undertake these assessments at any point in any placement but they **MUST** be completed before the Summative Submission point. The student can only be assessed **ONCE** per placement so if **unsuccessful cannot be reassessed again in the same placement**.

Support from University whilst in Placement

Practice Liaison Lecturers (PLL) works collaboratively with placement providers to support and facilitate student learning and achievement. The PLL role is to:

- Act as a point of contact for students, practice supervisors, practice assessors, academic assessors and other practice staff supporting student learning.
- Participate in meetings with the student and their practice supervisor, practice assessor and academic assessor (as required).
- Visit placement to offer guidance and support to practice supervisor, practice assessor and other practice staff supporting students learning (as required).
- Respond to student placement evaluations.

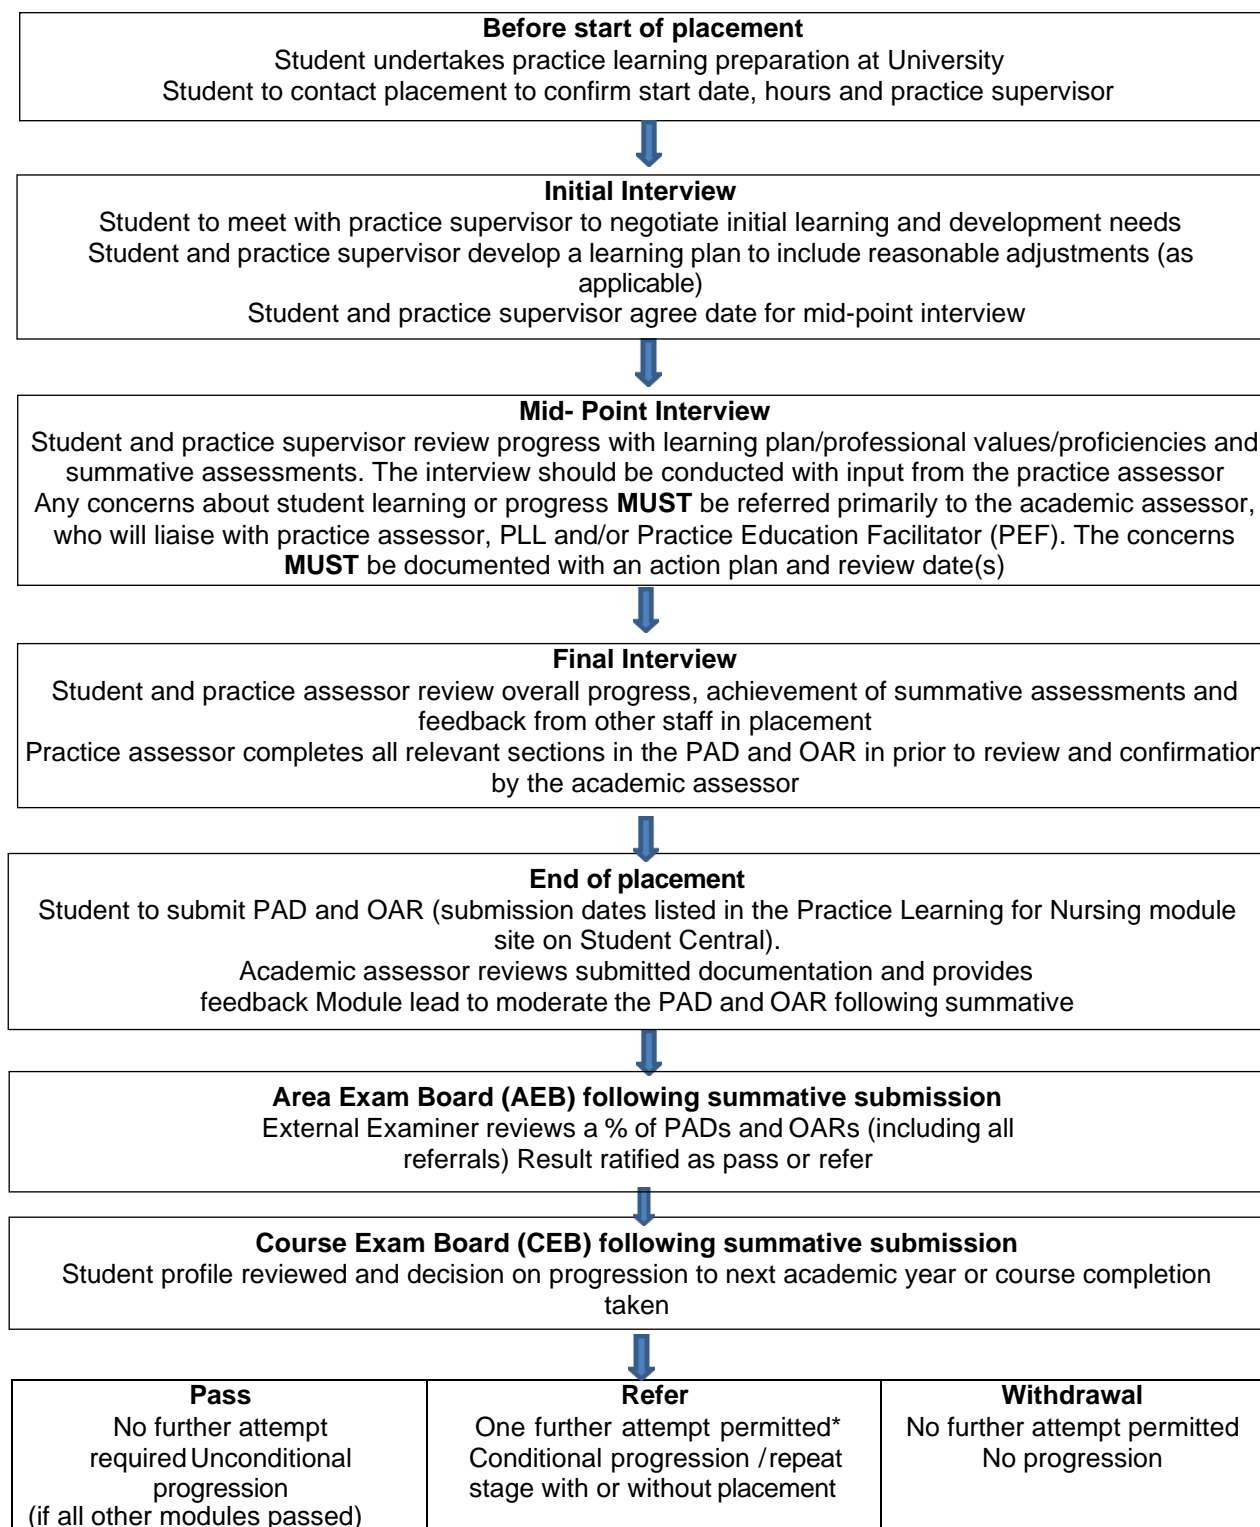

Contact a PLL via a shared email account PracticeLiaisonTeam@brighton.ac.uk

Submission of Practice Assessment Document (PAD)

The student will submit the PAD and Ongoing Achievement Record (OAR) at the end of the first placement period for a formative review by the academic assessor who will provide feedback for ongoing development and support in the student's practice learning and completion of the summative assessments.

The student will submit the PAD and OAR at the end of the second placement period for a summative review by the academic assessor who will provide feedback and confirm the pass/fail result

Please see the next page for an overview of the assessment process and student progression.

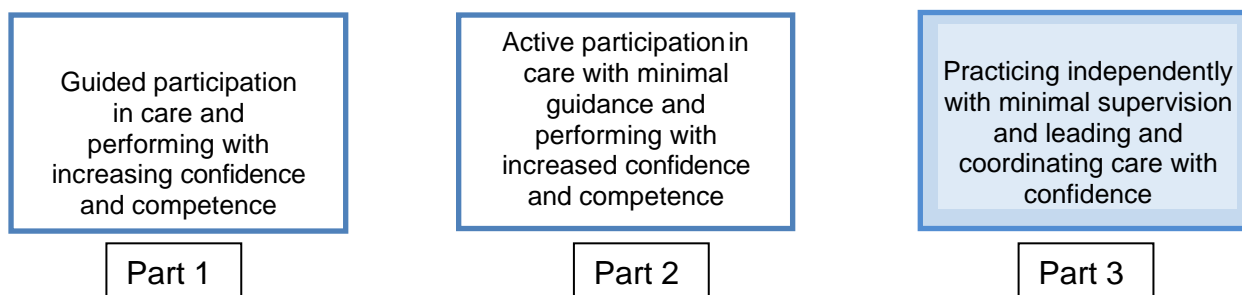

*Unless previous attempt deferred following upheld mitigating circumstances

Please refer to the Course Handbook and Student Central – Assessment Information for full details and information on assessment regulations, examination boards and mitigating circumstances.

Criteria for Assessment in Practice

Overall Framework Parts 1 – 3 to be achieved by the end of the part

The decision on the level of supervision provided for students should be based on the needs of the individual student. The level of supervision can decrease with the student's increasing proficiency and confidence. (NMC, 2018, p 5)

Part 3: Leads and coordinates care

'Achieved' must be obtained in all three criteria by the student

Achieved	Knowledge	Skills	Attitude and Values
YES	Has a comprehensive knowledge-base to support safe and effective practice and can critically justify decisions and actions using an appropriate evidence-base.	Is able to safely, confidently and competently manage person centred care in both predictable and less well recognised situations, demonstrating appropriate evidence based skills.	Acts as an accountable practitioner in responding proactively and flexibly to a range of situations. Takes responsibility for own learning and the learning of others.
NO	Is only able to identify the essential knowledge-base with poor understanding of rationale for care. Is unable to justify decisions made leading to unsafe practice.	With minimal supervision is not able to demonstrate safe practice despite guidance.	Demonstrates lack of self-awareness and professionalism. Does not take responsibility for their own learning.

Professional Values in Practice (Part 3)

Students are required to demonstrate high standards of professional conduct at all times during their placements. Students should work within ethical and legal frameworks, and be able to articulate the underpinning values of The Code (NMC, 2018). Professional Values reflect a number of proficiency statements and are captured under the 4 sections of The Code.

The Practice Assessor has responsibility for assessing Professional Values though the Mid-Point review can be completed by a Practice Supervisor in liaison with the Practice Assessor.

Yes = Achieved, No = Not Achieved

Prioritise people				
1. The student maintains confidentiality in accordance with the NMC code and recognises limits to confidentiality for example public interest and protection from harm.				
2. The student is non-judgemental, respectful and courteous at all times when interacting with patients/service users and all colleagues.				
3. The student maintains the person's privacy and dignity, seeks consent prior to care, challenges discriminatory behaviour and advocates on their behalf.				
4. The student is caring, compassionate and sensitive to the needs of others demonstrating positive role modelling.				
5. The student understands their professional responsibility in adopting and promoting a healthy lifestyle for the well-being of themselves and others.				
Practise effectively				
6. The student consistently delivers safe, person-centred and evidence based care ensuring patients/service users/carers are at the centre of decision-making.				
7. The student is able to work confidently and as an equal partner within the inter-disciplinary team and can build effective professional relationships.				
8. The student makes consistent effort to engage in and reflect on their learning, contributing to their own professional development and supporting the learning and development of others.				
9. The student demonstrates leadership skills and is able to work autonomously, seeks support where appropriate and responds positively to feedback.				
Preserve safety				
10. The student demonstrates openness (candour), trustworthiness and integrity.				
11. The student reports any concerns to a member of staff when appropriate and escalates as required (as per local policy/professional guidance) e.g. safeguarding.				
12. The student demonstrates the appropriate listening skills, seeks clarification where appropriate and carries out instructions safely.				
13. The student is able to recognise and work within the limitations of own knowledge, skills and professional boundaries and understand that they are responsible for their own actions.

Patient/Service User/Carer Feedback

Practice Supervisors/Practice Assessors should obtain consent from patients/service users/carers who should feel able to decline to participate. Please choose one of the following four forms which you feel is appropriate for your patient/carers/service user

Form 1

We would like to hear your views about the way the student nurse has supported your care. Your feedback will not change the way you are cared for and will help the student nurse's learning.

Tick if you are:	The Patient/Service User		Carer/Relative

Record of peer feedback

Feedback is an essential part of the learning process. Through engaging in peer review and receiving feedback from a number of peers, students are exposed to a greater diversity of perspectives as well as enabling students to develop skills in peer review and feedback.

These records can be completed by peers i.e. other students who have worked alongside you or have had the opportunity to discuss your learning needs with you. If you have facilitated a teaching session on placement you can use the form below to obtain feedback.

Record of peer feedback

Feedback is an essential part of the learning process. Through engaging in peer review and receiving feedback from a number of peers, students are exposed to a greater diversity of perspectives as well as enabling students to develop skills in peer review and feedback.

These records can be completed by peers i.e. other students who have worked alongside you or have had the opportunity to discuss your learning needs with you. If you have facilitated a teaching session on placement you can use the form below to obtain feedback.

Assessment of Proficiencies

Incorporating Platforms 1 – 7

Annexe A: Communication and relationship management skills

Annexe B: Nursing procedures

These proficiencies ***“apply to all registered nurses, but the level of expertise and knowledge required will vary depending on the chosen field(s) of practice”***. (NMC, *Future Nurse*, 2018, p22, 26)

Assessment of Proficiencies are undertaken across the Part. These can be assessed in a range of placements but need to be assessed as Achieved (YES) at least once by the end of the Part. If a proficiency is assessed as Achieved (YES) early in the Part it is expected that the student maintains that level of competence and can be re-assessed in subsequent placements at the Practice Assessor’s discretion.

The Grade Descriptors are ‘Yes’ (This proficiency has been achieved), ‘No’ (this proficiency has not been achieved). Refer to Criteria for Assessment in Practice for further details.

Some of the proficiencies may be met within simulated learning as per the individual university’s policy.

Proficiencies marked with an * can be met in either Part 2 or Part 3 and please refer page 40 and to the OAR to confirm achievement of these.

Part 3 Assessment of Performance: The individual completing the assessment should draw on a range of observed experiences in which the student demonstrates the required knowledge, skills, attitudes and values in co-ordinating high quality person/family centred care, ensuring all care is underpinned by effective communication skills. ***Those marked with an * may have been met in Part 2. Record achievement of Part 3 proficiencies marked * 3 in OAR as well.***

Part 2, No. 25 Demonstrates knowledge and skills related to safe and effective venepuncture and can interpret normal and abnormal blood profiles						
Part 2, No. 26 Demonstrates knowledge and skills related to safe and effective cannulation in line with local policy.						
Part 2, No. 27 Manage and monitor blood component transfusions in line with local policy and evidence based practice						
Part 2, No. 28 Can identify signs and symptoms of deterioration and sepsis and initiate appropriate interventions as required.						

Part 3 Episode of Care 1

This assessment must be undertaken and assessed by a Practice Assessor by the end of Part 3
Guidelines

The student will be given the opportunity to supervise and teach a junior learner/colleague in practice and provide a written reflection on this experience. This needs to be based on the delivery of direct person-centred care. Professionalism underpins all aspects of the student's performance.

The aim of this assessment is to demonstrate the student's progression in the following five platforms within the *Future Nurse: Standards of proficiency (including skills from annexe A and B)* (NMC 2018) **in the context of their intended field(s) of practice:**

- Assessing needs and planning care
- Providing and evaluating care
- Improving safety and quality of care
- Leading nursing care and working in team
- Coordinating care

Effective communication and relationship management skills underpin all aspects of care (Annex A)

Students are required to use appropriate approaches and techniques considering the person's motivation, capacity and need for reasonable adjustment applying understanding of mental capacity and health legislation as appropriate.

Learning outcomes

The student is able to:

1. Supervise and teach less experienced students and colleagues, appraising the quality of the nursing care they provide, documenting performance, promoting reflection and providing constructive feedback.
2. Demonstrate an understanding of the factors that both facilitate and impede learning in practice.
3. Demonstrate leadership potential in the assessment, planning, implementation and evaluation of care.
4. Apply the appropriate knowledge and skills in appraising the quality of the nursing care provided by the junior learner colleague.
5. Demonstrate effective verbal, non-verbal communication and interpersonal skills in engaging with the learner and others involved in the care and act as a positive role model.
6. Critically reflect on their own role and the role of the nurse in the supervision, facilitation and evaluation of learning for the whole team.

Student reflection on an episode of care

Within your reflection, describe the episode of care and how you planned and supervised the junior learner/peer in practice who delivered person-centred care.

What would you have done differently?

What did you do well?

What learning from this episode of care will support your professional development going forward in your teaching and learning role?

Practice Assessor feedback Based on the student's reflection, your observation and discussion of the episode of care, please assess and comment on the following: YES = Achieved No = Not Achieved (Refer to Criteria for Assessment in Practice)		
Proficiencies	Yes/No	Comments
Assessing, planning, providing and evaluating care Chooses an appropriate care activity for the junior learner/peer to engage in and considers the learner's needs and their current level of knowledge and skills.		
Leading nursing care and working in teams Effectively prepares the junior learner/peer and provides them with clear instructions and explanations about the care activity they are to engage in.		
Improving safety and quality of care The student undertakes a risk assessment to ensure that the person(s) receiving care is not at risk from the learner/care activity. Continuous supervision and support is provided to the junior learner/peer throughout the care activity.		
Co-ordinating care: Effectively communicates throughout the care activity, evaluates the care given and provides the junior learner / peer with constructive verbal and written feedback.		
If any of the Standards are 'Not Achieved' this will require a re-assessment and the Academic Assessor must be informed

Part 3 Episode of Care 2

This assessment must be undertaken and assessed by a Practice Assessor by the end of Part 3
Guidelines

The practice assessor and student will identify an appropriate episode of direct care involving the organisation and management of care for a group/caseload of people with complex care needs. Professionalism underpins all aspects of the student's performance.

The aim of this assessment is to demonstrate the student's progression in the following six platforms within the *Future Nurse: Standards of proficiency (including skills from annexe A and B)* (NMC 2018) **in the context of their intended field(s) of practice:**

- Promoting health and preventing ill health
- Assessing needs and planning care
- Providing and evaluating care
- Improving safety and quality of care
- Leading and managing nursing care and working in teams
- Coordinating care

Effective communication and relationship management skills underpin all aspects of care (Annex A)

Students are required to use appropriate therapeutic approaches and techniques considering the person's motivation, capacity and need for reasonable adjustment applying understanding of mental capacity and health legislation as appropriate.

Being an accountable professional should underpin all aspects of this episode.

Learning outcomes

The student is able to:

1. Demonstrate the knowledge, skills and ability to coordinate the care for a group of people with complex and multiple care needs and act as a role model in managing person centred, evidence based approach to care.
2. Evaluate a team based approach to the quality of care delivery and demonstrates understanding of the roles, responsibilities and scope of practice of all team members.
3. Demonstrate leadership potential in the assessment, planning, implementation and evaluation of care within the practice setting through effective interaction and engagement with people, services and communities.
4. Critically appraise the quality and effectiveness of nursing care, demonstrate how to use service delivery evaluation in practice and how to bring about service improvement and audit findings to improve care.

Student reflection on the Episode of Care

Reflect on how you have worked in partnership with health and social care professionals, service users, carer and families ensuring that decision- making about care is shared.

What would you have done differently?

What did you do well?

What learning from this episode of care could be transferred to other areas of practice?

Practice Assessor feedback		
Based on the student's reflection, your observation and discussion of the episode of care, please assess and comment on the following: YES = Achieved No = Not Achieved (Refer to Criteria for Assessment in Practice)		
Proficiencies	Yes/No	Comments
Assessing needs and planning care Demonstrates the ability to assess the needs to develop and deliver person-centred, evidence based care with agreed goals.		
Providing and evaluating care Safely and effectively leads and manages care demonstrating appropriate decision-making, prioritisation and delegation to others involved in giving care. Evaluates and reassesses effectiveness of planned care and readjusts agreed goals.		
Communication and interpersonal skills Demonstrates effective communication and interpersonal skills with patients/service users/carers. Communicates with the multi-disciplinary team and staff when delegating care, giving clear instructions and providing accurate and comprehensive written and verbal reports.		
Leading nursing care and working in teams Exhibits leadership potential by demonstrating an ability to manage, support and motivate individuals and interact confidently with other members of the care team. Uses effective management skills to organise work efficiently.		
Improving safety and quality of care Identifies the risks to patient safety and can articulate processes to escalate concerns appropriately		
Coordinating care Monitors and evaluates the quality of person centred care being delivered. Develops ability to be proactive to improve quality of care when required.		
If any of the Standards are 'Not Achieved' this will require a re-assessment and the Academic Assessor must be informed

Part 3 Medicines Management

This assessment must be completed by the end of Part 3 where the student safely administers medicines to a group of patients/service users or a caseload of patients/service users in community settings.

During Part 3 the student should be consolidating their knowledge, skills and competencies in relation to the safe administration of medicines. This assessment should normally be undertaken with a small group of patients/service users or caseload. **Professionalism underpins all aspects of the student's performance.**

The student must be allowed a number of practice opportunities to administer medicines under supervision prior to this assessment.

The student must work within the legal and ethical frameworks that underpin safe and effective medicines management and work within national and local policies

Regulatory requirements: *Future Nurse: Standards of proficiency (including skills from annexe A and B)* (NMC 2018) *The Code* (NMC 2018), *A Competency Framework for all Prescribers* (The Royal Pharmaceutical Society 2016)

The aim of this assessment is to demonstrate the student's knowledge and competence in administering medications safely.

Learning outcomes

The Student is able to:

1. Apply knowledge of pharmacology, how medicines act and interact in the systems of the body, and their therapeutic action.
2. Prepare medications where necessary, safely and effectively administer these via common routes and maintains accurate records.
3. Demonstrate proficiency and accuracy when calculating dosages for a range of prescribed medicines.
4. Administer and monitor medications using vascular access devices and enteral equipment, where appropriate.
5. Recognise and respond to adverse or abnormal drug reactions to medications.
6. Maintain safety and safeguard the patient from harm, including awareness of non-compliance, demonstrating understanding of the Mental Capacity Act (DH 2005) and the Mental Health Act (DH 1983, amended 2007), where appropriate.

YES = Achieved No = Not Achieved			
Competency	Yes/No	Competency	Yes/No
1. Is aware of the patient/service user's plan of care and the reason for medication demonstrating knowledge of pharmacology for commonly prescribed medicines within the practice area.		7. Prepares medication safely. Checks expiry date. Notes any special instructions/contraindications.	
2. Communicates appropriately with the patient/service user. Provides clear and accurate information and checks understanding.		8. Calculates doses accurately and safely. <ul style="list-style-type: none"> • Demonstrates to assess the component parts of the calculation. • Minimum of 5 calculations undertaken demonstrating increased complexity 	
3. Understands safe storage of medications in the care environment.		9. Checks and confirms the patient/service user's identity and establishes consent. (ID band or other confirmation if in own home)	
4. Maintains effective hygiene/infection control throughout.		10. Administers or supervises self-administration safely under direct supervision. Verifies that oral medication has been swallowed. Can use the principles of safe remote prescribing and directions to administer medications	
5. Checks prescription thoroughly. <ul style="list-style-type: none"> • Right patient/service user • Right medication • Right time/Date/Valid period • Right dose/last dose • Right route/method • Special instructions 		11. Describes/demonstrates the procedure in the event of reduced capacity and non-compliance	
		12. Safely utilises and disposes of equipment.	
		13. Maintains accurate records. <ul style="list-style-type: none"> • Records, signs and dates when safely administered 	
		14. Monitors effects and has an understanding of common side effects, contraindications incompatibilities, adverse reactions, prescribing errors and the impact of polypharmacy.	
6. Checks for allergies and sensitivities demonstrating an understanding of risks and managing these as appropriate <ul style="list-style-type: none"> • Asks patient/service user. • Checks prescription chart or identification band 		15. Uses relevant frameworks for medicine use as appropriate. E.g. local formularies, care pathways, protocols and guidelines.	
		16. Offers patient /service users and their carers further support/advice/education. Including discharge/safe transfer where appropriate
