

# REPHRAIN Masterclass

**Law & Regulation and Online Harms**

**Madeline Carr:**  
Professor of Global  
Politics and  
Cybersecurity, UCL and  
Deputy Director of  
REPHRAIN

**Asma Vranaki:**  
Lecturer in Law,  
Bristol University,  
REPHRAIN Academic  
Lead on Policy and  
Regulation

**Jose Tomas Llanos:**  
Research Fellow, UCL  
on SURVEY and PACE

# Today...

- A global SURVEY on Regulatory and Policy Initiatives to Protect Citizens Online (*Madeline Carr*)
- EU GDPR vs UK GDPR: The Implications of Brexit for UK Data Protection Laws (*Asma Vranaki*)
- Alongside but separate: Lessons from interdisciplinary research on privacy-enhancing technologies (PETs) (*Jose Tomas Llanos*)

# A global **SURVEY** on Regulatory and Policy Initiatives to Protect Citizens Online

## Context:

- Online harms are complex, inter-related, and still emerging.
- Lines of responsibility are not always clear. (Role of private actors etc)
- Making good, durable policy for emerging digital tech is **HARD**.
- We're out of time.

# SURVEY and the REPHRAIN Toolbox

- Review of global policy initiatives, laws and regulatory frameworks
- Working with colleagues at the Australian Tech Policy Design Centre
- Steps:
  - SURVEY: Large data gathering exercise (36 countries).
  - EVALUATE: Match outcomes to policy goals.
  - ANALYSE: Successes and failures, possible collaborations.
  - DISSEMINATE: Papers, policy briefs, Toolbox.

# The challenge:

- These are global problems that are largely addressed locally.
- They are also problems that are perceived very differently by different groups.
- Understanding what has worked / not worked in other places can help policy makers
- This will provide a global, openly available resource.
