## SURVEY

PI: Professor Madeline Carr, UCL PDRA: Dr Jose Tomas Llanos, UCL

The Global Tech Policy Atlas is a public repository of national tech policy, strategy, legislation and regulation. Its purpose is to assist policymakers and researchers conduct evidence-based independent research. We worked collaboratively on this with colleagues at the Tech Policy Design Centre at the Australian National University.

- Over 2000 records from 35 countries. Every record is saved as a PDF, linked back to the original source, and linked to the Wayback Machine.
- Website: developed with support from the REPHRAIN Impact Acceleration fund

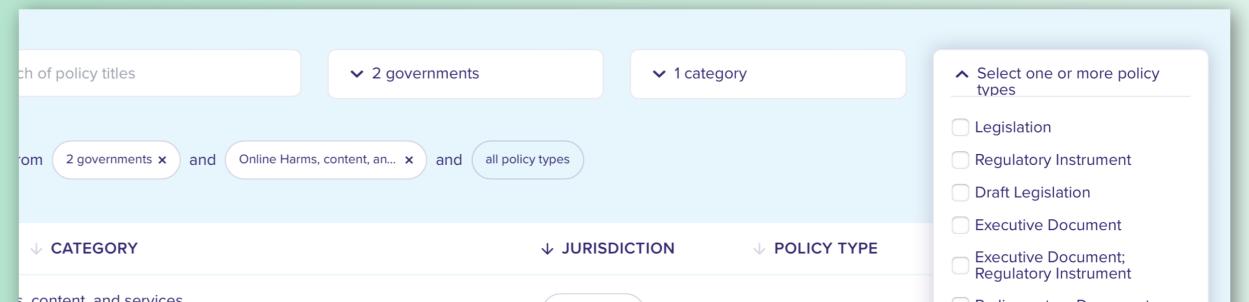

## • Launched globally on December 14
