PARTICIPANTS
RANDOMISED!!

02 CHRISTMAS CLOSURE DATES

The ADEPT-2 study team will be out of office for the festive period, from Friday 23 December 2022 until Wednesday 4 January 2023. The study mailbox will not be covered during this period. We will respond to your message as soon as possible on our return.

We recommend you inform your participants of any local Christmas closures as soon as possible & reschedule GSH sessions, if needed. You may also need to arrange alternative risk reporting procedures.

03 SAFETY REPORTING OVER CHRISTMAS

If one of your study participants experiences a Serious Adverse Event over the Christmas period, please report this directly to the study Sponsor by email: **nhs-sponsorship@bath.ac.uk**. Their mailbox will continue to be checked during closure days.

Please also **copy in the ADEPT-2 study mailbox**, for us to pick up on our return.

04 16 WEEKS FOLLOW UP

Participants will soon start reaching their 16 week follow up timepoint. Please remember to check when your follow ups are due.

- If the participant has selected **online questionnaires**, invites will be sent automatically from the study database.
- If the participant has chosen to receive **paper copies** of the questionnaires, these should be sent out by an RA up to one week before the due date - please include a pre-paid return envelope.
