

# Total Communication

## What is total communication?

- Sharing a message in lots of ways
- People like different methods

## Why do we use total communication?

- To get the message across when speaking is hard
- Everyone has important things to say

Do ...	Don't ...
...listen	...make me feel stressed
...use easy words	...interrupt me
...write words to help me	...forget to write things down
...talk slowly	...ignore me
...support me when I use total communication	
...draw things to help me	
...ask questions to check you understand	
...tell me if you don't understand	
...ask what will help me	
...ask my friends and family to help you understand	

*This poster was produced by the Total Communication group at the UCL Communication Clinic.*
