

INVITATION TO

'SPEAK RED'

APHASIA OPERA WORKSHOPS 2019

We want to hear your story and learn about your experience of living with aphasia

After the trial workshop in November last year, we are looking for people with aphasia to collaborate with us for 3 more workshops.

Writer Finn Beames and composer Santa Bušs are developing a new opera about living with aphasia.

We have had an idea for the story of the opera, based on a living American woman who has aphasia. She fought discrimination to change the law in an inspiring and powerful way. She is called Ruby McDonough.

- ✓ We want to share our research with you to see what you think, and explore how your talents could help tell the story. We also want to include your stories!
- ✓ We want to make sure that people with different communication needs can enjoy and understand the opera.
- ✓ We want to create roles for people with aphasia to perform, alongside professional singers.
