The collage features several library websites. The central and largest website is the King County Library System (KCIS) website. It has a dark header with the KCIS logo and navigation links: ask kids, CATALOG, GET A LIBRARY CARD, FIND A LIBRARY, and MY ACCOUNT. Below the header is a menu with categories: EBOOKS & Downloads, BOOKS & More, USING THE Library, CLASSES & Programs, KIDS & Teens, and LEARNING & Research. A search bar is located on the right side of the header. The main content area features a large banner for 'RACE IN AMERICA' and a section for 'Featured Books of the Month'. At the bottom, there are social media links for Facebook and Twitter, and a 'FEATURED PROGRAMS' section with links to MOS Office Specialist Exams, MOS Free Microsoft Office Tests, and a Meet J.A. Jance author event.

Other websites visible in the collage include the Public Library of Chicago, the University of Illinois at Chicago, and the University of California. These websites show various library services, including book borrowing, digital resources, and community programs.

The screenshot displays the Carrot Clustering search engine interface. At the top, there is a navigation bar with icons for various search categories: Web, Wiki, Bing, News, Images, Jobs, PubMed, and PUT. A search bar contains the text "uk libraries" and a "Search" button. To the right of the search bar are links for "About" and "New features!". Below the search bar, there are tabs for "Folders", "Circles", and "FoamTree". The "Folders" tab is active, showing a hierarchical list of topics. The "All Topics (100)" folder is expanded, listing various categories such as "UK Public Libraries (15)", "Library Catalogue (13)", "Council Services (10)", "Library in London (9)", "National Library (8)", "City Council (7)", "County Council (6)", "Access to Books (5)", "Internet Access (5)", and "Ireland (5)". A "more | show all" link is at the bottom of the list. On the right side, the search results are displayed under the heading "Top 100 results of about 16100000 for uk libraries". The first three results are listed:
