Personal Profile

I am currently a second year student at Ulster University with an enthusiasm for concept art and animation. I love being able to tell a story through a character's design as well as show their personality through their movements and body language.

I always find new inspiration when working in a team as more creative ideas and concepts can emerge, along with constructive feedback and new ways to challenge myself.

Experience

Ulster University - Cute Character Design

Designed and modelled a cute character in Blender and textured in Substance Painter.

Ulster University - 3D Modelled Wand

Researched and designed a wand with a clock theme that I modelled in Maya.

Ulster University - 2D animation

Researched and created concept art for a number of characters used in the animation, Nespresso Noir.

Ulster University - A Midnight Snack

Designed and textured an abandoned kitchen for a short 3D animation.

Education

Ulster University

2020 - Current

BDes Hons in Animation

St. Ronan's College

2013 - 2020
