

<p>Can you make a calendar? Or a weather chart? You could use a chalk board or draw pictures and daily stick onto a piece of card once you have checked the weather daily.</p> <p>Do you know what time you eat breakfast, lunch, dinner, or supper? Ask your grown up to help you look at the clock for the time of each meal!</p>	<p>Please share your learning on SEESAW.</p> <p>IDEAS FOR LEARNING AT HOME</p> <p>Linking home learning to some of the interests and learning at nursery</p> <p>https://t.co/NL2hUr6Fvy?amp=1</p> <p>Here's a link to a video to watch! Storytime for kids Blown Away by Rob Biddulph</p>	<p>Matching and sorting: Draw and cut out 10 mitt shapes write numbers one to 10 on each mitt and find some buttons / stones or other small object. Count out and place the object onto the corresponding number onto the mitt</p> <p>This activity will support Counting Matching Number recognition 1-1</p>
<p>Health and well being: Independence Can you help by making your own bed? Can you try to dress yourself? Can you help your grown up to tidy up? Maybe you could help to sort out the recycling</p>		<p>Can you make a bird feeder? Core an apple, push a stick straight through the apple, add sunflower seeds around the apple and add string. What else could you use to feed the birds?</p>
<p>Bears and bats hibernate through the winter season Bears live in caves Can you build a cave using recycled materials. Can you think of any other animals, insects or minibeasts that may hibernate ?</p>	<p>Winter Facts</p> <p>A snowflake has 6 sides</p> <p>A polar bear lives in the Arctic</p> <p>Penquins live in the Antartica</p> <p>Arctic foxes dig a home in the snow</p>	<p>Nights in Winter are longer than summer. Can you make a night time picture ? Maybe add some planets, do you know the names of any?</p>
